

Lift-The-Dot® FASTENERS

DOT® Lift-the-DOT® fasteners are strong, heavy-duty, and lock on three sides. They are opened by lifting the fourth side where DOT and Lift-the-DOT trademarks appear. Rust-resistant, Lift-the-DOT fasteners are constructed of all brass or other non-ferrous metals ensuring that they can be used in the most difficult environments. Available in a variety of post lengths, sockets and studs to accommodate a wide range of material thicknesses, Lift-the-DOT conforms to US Government MIL-10884 specifications, MS27977 Style 1. Uses include: Automotive, Luggage and Leather Goods, Marine, Military, and Tents and Awnings.

Base Material Options: Brass, Brass/Stainless, Brass/Plastic, and Plastic.

Finish Options: Nickel, Government Black and Custom finishes
